My dear Friend

I mail you herewith a copy of "Facts for the People" containing a somewhat radical (political) anti-slavery & anti Know Nothing speech delivered by me on the 27th of June. If agreeable to you I would be glad to have it in the Liberator. There is so much cheap & superficial antislavery abounding in the country, leading many foolishly to imagine our cause very near its millinium that I think the line of argument I pursue pertinent & needed, even if I am not sufficiently ~~hopeful~~.

I have noted in the columns & the margin several corrections which ought to be made in it as set up by the Era. Should you publish please be sure to strike out the word "precise" in the title, I meant present.

I am Yours very truly
